Wonderful with clear interior special

ZEBRA WOOD Eco
Great with smaller speakers special

PALISANDER Eco
The elegant pinstripe suit special

STANDARD VENEERS

The austrian walnut is our most beloved veneer.
We can offer it in different flavors.

It is carefully selected and matched, the thickness is higher than commonly used for this purpose.
The finish is of natural matt.
For the ultimate haptic result we sand the surface very finely with maple veneer.

Please hold in mind: Wood is a natural thing and each veneer is unique as a fingerprint.

SPECIAL VENEERS

We can individualize your loudspeakers!
Almost any veneer, colour or finish is possible.
Except exotic woods and other environmentally unsustainable materials.
Our ECO veneers are composites of domestic wood.

If you want something special, made just for you, we'll do our best.
